

*L'Arcolaio*  
società cooperativa sociale

*Sicilian Organic  
and Solidarity-  
Committed Delights*

L'Arcolaio produces **traditional Sicilian** sweets and other typical products of our land using **organic raw materials** from **local agriculture** and **fair trade networks**, promoting the social and occupational integration of **prisoners** and other **disadvantaged people**.

## DOLCI EVASIONI

We produce **organic and gluten-free traditional Sicilian sweets**, pastries and other snacks inside the **Siracusa's prison**, where around 10 convicted people are involved in the manufacturing. Raw materials are strictly selected to guarantee authenticity and ethics of our production, giving priority to **short and transparent supply chains**. Our «**Dolci Evasioni**» (sweet escapes) branded products are distributed in Italy and abroad through organic and fair trade specialized stores and ethical purchasing groups.

## FRUTTI DEGLI IBLEI

With the social agriculture project **Frutti degli Iblei** we brought back to life some raw lands in the middle of Iblei Mountains, South-East Sicily. Here, together with **young migrants** and other disadvantaged people, we grow **typical Mediterranean aromatic herbs** such as thyme, sauge, fennel and origan. In the nearby laboratory we dry and pack our herbs, as well as **vegetables** and **fruit** from **small local farmers**, with the aim to promote their work through **collaborative networks**.
